

Maricopa Medical Center Child Life Wish List

We are always overwhelmed at the generosity of our patients, their families, employees and volunteers at Maricopa Medical Center. So many often ask us how they can give back/donate to the hospital, and for this purpose, we've developed the Child Life Wish List. By assisting in the purchase/donation of the items on this list, you are helping to make the stay of each pediatric patient just a little bit brighter and a little more comfortable.

We are most in need of items listed below under "Infant" and "Adolescent" categories, as well as gift cards in all price ranges. We greatly appreciate all donations.

To make a donation, please contact the Child Life Team at (602) 344-1133 or Sandra Muñoz, Volunteer Services Coordinator, at (602) 344-5989. Thank you so much for your generosity and support!
